1. Introduction and Ethos

- *Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right.* (EYFS 2017)
- Staff working with children at Kinderversity will maintain an attitude of 'it could happen here' where safeguarding is concerned.
- The Proprietor of Kinderversity believe that all those directly involved with our setting have an essential role to play in making it safe and secure. Our setting aims to create the safest environment within which every child has the opportunity to achieve their full potential and we take seriously our responsibility to promote the welfare and safeguard all the children and young people entrusted to our care.
- As part of the safeguarding ethos of the setting we are committed to:
 - Maintaining children's welfare as our paramount concern
 - Providing an environment and culture in which children feel safe, secure, valued and respected, confident to talk openly and sure of being listened to
 - Developing appropriate and positive relationships between children and the adults that care for them
 - Providing suitable support and guidance so that children have a range of appropriate adults who they feel confident to approach if they are in difficulties
 - Using learning opportunities to increase self-awareness, self-esteem, assertiveness and decision making. This is so that young children develop a range of contacts and strategies to ensure their own protection and understand the importance of protecting others
 - Working with parents/carers to build an understanding of the setting's responsibility to ensure the welfare of all children including the need for referral to other agencies in some situations
 - Ensuring all staff have regular and appropriate training (including induction) to enable them to recognise the signs and symptoms of abuse and ensure they are aware of the setting's procedures and reporting mechanisms
 - Monitoring children who have been identified as 'in need' including the need for protection, keeping confidential records which are stored securely and shared appropriately with other professionals.
 - Developing effective and supportive liaison with other agencies.
- Kinderversity adheres to the KSCMP Safeguarding Children Procedures. The full KSCMP procedures document and additional guidance relating to specific safeguarding issues can be found on the KSCMP website: www.kscmp.org.uk

2. Policy Context

- This policy has been developed in accordance with the principles established by the Children Acts 1989 and 2004 and has due regard to the related guidance. This includes:

- The way the setting is currently operating in response to coronavirus (Covid-19), however, our safeguarding principles in accordance with KCSIE 2020 and related government guidance, remain the same. We will continue to follow government guidance and will amend this policy, as necessary.
- We acknowledge that some children may return to the setting having been exposed to a range of adversity and trauma including bereavement, anxiety and in some cases increased welfare and safeguarding risks. We will work with local services (such as health and the local authority) to ensure necessary services and support are in place to support children and their families.

 - taking action to enable all children to have the best outcomes.
- It also reminds us that safeguarding “**is everyone’s responsibility**” (WTSC). *Everyone who comes into contact with children and families has a role to play.* Everyone should consider wider environmental factors in a child’s life that may be a threat to their safety and/or welfare.

- If staff have any concerns about a child's welfare, they should act on them immediately. They should follow this child protection policy and speak to the Designated Safeguarding Lead (or deputy).
- least annually. The policy will be revised following any national or local policy updates, any local child protection concerns and/or any changes to our procedures.

- Parents/carers can obtain a copy of the Child Protection Policy and other related policies on request. Additionally, our policies can be viewed via our website .
- The policy forms part of our development plan and will be reviewed annually by the Proprietor which has responsibility for oversight of safeguarding and child protection systems.
 - The Designated Safeguarding Lead and manager will ensure the Proprietor regular reporting on safeguarding activity and systems. They will not receive details of individual children's situations or identifying features of families as part of their oversight responsibility.

6. Key Responsibilities

- The proprietors have read and will follow the relevant safeguarding guidance as applicable to the setting, including the EYFS and KCSIE 2020.
- The Proprietors and leadership team will ensure that the Designated Safeguarding Lead is supported in their role.

6.1 The Designated Safeguarding Lead (DSL)

- The EYFS 2017 states; *'a practitioner must be designated to take lead responsibility for safeguarding children in every setting'*. The proprietors of Kinderversity, whose responsibility it is to ensure all legal requirements are met, have appointed an appropriately qualified and experienced Designated Safeguarding Lead (DSL) to fulfil this role in our setting.
- Sian Flood, Nursery Manager is the settings Designated Safeguarding Lead. Additionally, Kinderversity have appointed a Deputy DSL Sophie Nichols who has delegated responsibilities and will act in the DSLs absence.
- Kinderversity is committed to ensuring that the DSL is properly supported in being able to carry out this role fully, including providing them with appropriate time and resources away from other job commitments.
- The DSL has overall responsibility for the day to day oversight of safeguarding and child protection systems in Kinderversity. Whilst the activities of the DSL may be delegated to the deputies, the ultimate lead responsibility for safeguarding and child protection remains with the DSL and this responsibility will not be delegated.
- The DSL will undergo appropriate and specific training to provide them with the knowledge and skills required to carry out their role. Deputy DSLs are trained to the same standard as the DSL. The DSL and any deputy DSLs training will be updated formally every two years, but their knowledge and skills will be updated through a variety of methods at regular intervals and at least annually.
- The manager will be kept informed of any significant issues by the DSL.
- The DSL (and deputies) will be provided with sufficient time so they can provide appropriate support to staff and children regarding any new safeguarding and welfare concerns following Covid-19. This may include handling of referrals to integrated social care and working with other agencies where appropriate.
- **It is the role of the DSL to:**
 - Act as the central contact point for all staff to discuss any safeguarding concerns
 - Maintain a confidential recording system for safeguarding and child protection concerns
 - Coordinate safeguarding action for individual children
 - When supporting children with a social worker or looked after children the DSL should have the details of the child's social worker.
 - Liaise with other agencies and professionals in line with WTSC 2018 and KCSIE 2020.
 - Ensure that locally established procedures as put in place by the three safeguarding partners (KSCMP), including referrals, are followed, as necessary.
 - Represent, or ensure the setting is appropriately represented at multi-agency safeguarding meetings (including Child Protection conferences)
 - Manage and monitor the settings role in any multi-agency plan for a child.
 - Ensure adequate and appropriate DSL cover arrangements in response to any closures and out of hours and/or out of term activities.

- Ensure all staff access appropriate safeguarding training and relevant updates in line with the recommendations within EYFS 2017 and KCSIE (2020)

6.2 All staff

- The EYFS 2017 requires providers *“to take all necessary steps to keep children safe and well”* and accordingly, everyone involved in the care of young children has a role to play in their protection. All members of staff in the setting are part of the wider safeguarding system for children and are in a unique position to observe any changes in a child’s behaviour or appearance.
- **All members of staff have a responsibility to:**
 - have a responsibility to identify children who may be in need of extra help or who are suffering, or are likely to suffer, significant harm.
 - have a duty of care to take appropriate action and work with other services as needed.
 - provide a safe environment in which children can learn.
 - Be prepared to identify children who may benefit from early help.

 - Be able to identify and act upon indicators that children are, or at risk of developing mental health issues.
 - Know how to maintain an appropriate level of confidentiality.
 - Be aware of the indicators of abuse and neglect so that they can identify cases of children who may need help or protection.

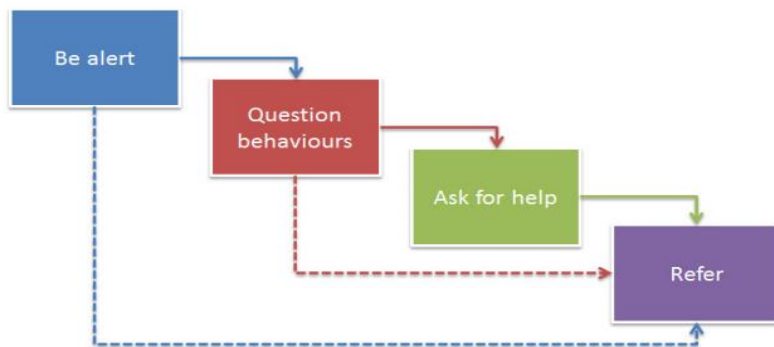

6.3 Parents/carers have a responsibility to:

- Understand and adhere the relevant [setting](#) policies and procedures.
- Talk to their children about safeguarding issues with their children and support the [setting](#) in their safeguarding approaches.
- Identify behaviours which could indicate that their child is at risk of harm including online.
- Seek help and support from the [setting](#) or other agencies

7. Recognising Indicators of Abuse and Neglect

- All staff in Kinderversity are made aware of the definitions and indicators of abuse and neglect as identified by Working Together to Safeguard Children (2018), EYFS 2017 and Keeping Children Safe in Education 2020. This is outlined locally within the [Kent Support Levels Guidance](#).
- Kinderversity recognises that when assessing whether a child may be suffering actual or potential harm there are four categories of abuse:
 - Physical abuse
 - Sexual abuse
 - Emotional abuse
 - Neglect
 - For further information see Appendix 1.

- All members of staff are expected to be aware of and follow this approach if they are concerned about a child:

'What to do if you are worried a child is being abused' 2015

- Members of staff are aware that concerns may arise in many different contexts and can vary greatly in terms of their nature and seriousness. The indicators of child abuse and neglect can vary from child to child. Children develop and mature at different rates, so what appears to be worrying behaviour for a younger child might be normal for an older child.
- It is important to recognise that indicators of abuse and neglect do not automatically mean a child is being abused however all concerns should be taken seriously and explored by the DSL on a case by case basis.
- Kindersiversity recognises that some children have additional or complex needs and may require access to intensive or specialist services to support them.
- Children may report abuse happening to themselves, their peers or their family members. All reports made by children to staff will be taken seriously and will be responded to in line with this policy.
- Parental behaviour's may also indicate child abuse or neglect, so staff should also be alert to parent-child interactions or concerning parental behaviours; this could include parents who are under the influence of drugs or alcohol or if there is a sudden change in their mental health.
- Safeguarding incidents and/or behaviours can be associated with factors outside the setting and/or can occur between children offsite or involve children's family members.
- Children can be are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation, and serious youth violence.
- By understanding the indicators or abuse and neglect, we can respond to problems as early as possible and provide the right support and services for the child and their family.

8. Child Protection Procedures

- If staff are made aware of a child protection concern, they are expected to:
 - listen carefully to the concern and be non-judgmental.
 - only use open questions to clarify information where necessary, e.g. who, what, where, when or Tell, Explain, Describe (TED).
 - not promise confidentiality as concerns will have to be shared further, for example, with the DSL and potentially Integrated Children's Services.
 - be clear about boundaries and how the report will be progressed.
 - record the concern in line with the settings record keeping requirements (see section 9).

- inform the DSL (or deputy), as soon as practically possible.
- [Kinderversity](#) adheres to the Kent Safeguarding Children Multi-Agency Partnership procedures (KSCMP). The full KSCMP procedures and additional guidance relating to reporting concerns and specific safeguarding issues can be found on their website: <https://www.kscmp.org.uk/>
- Kinderversity recognise that in situations where there are immediate child protection concerns identified in line with Support Level Guidance, it is NOT to investigate as a single agency but to act in line with KSCMP guidance which may involve multi-agency decision making.
 - The DSL may seek advice or guidance from their Area Education Safeguarding Advisor from the Education Safeguarding Service before deciding next steps. They may also seek advice or guidance from a social worker at the Front Door service who are the first point of contact for Integrated Children's Services (ICS).
- If a child is in immediate danger or is at risk of harm, a request for support will be made immediately to Integrated Children's Services (Front Door) and/or the police in line with KSCMP procedures.
- All staff are aware of the process for making request for support referrals for statutory assessments under the Children Act 1989, along with the role they might be expected to play in such assessments.
- In most cases, a request for support will be made by the DSL or a deputy. However if the DSL or a deputy is not immediately available to discuss an urgent concern, staff will seek advice from the Education Safeguarding Service or via consultation with a social worker from the Front Door. If anyone other than the DSL makes a referral to external services, they will inform the DSL as soon as possible.
- In the event of a request for support to the Front Door being necessary, parents/carers will be informed and consent to this will be sought by the DSL in line with guidance provided by KSCMP.
 - Parents/carers will be informed unless there is a valid reason not to do so, for example, if to do so would put a child at risk of harm or would undermine a criminal investigation.
- The DSL will keep all early help cases under constant review and consideration will be given to a request for support to the Front Door if the situation does not appear to be improving or is getting worse.
- If, after a request for support or any other planned external intervention, a child's situation does not appear to be improving, the DSL will consider following [KSCMP escalation procedures](#) to ensure their concerns have been addressed and, most importantly, that the child's situation improves. DSLs may request support with this via the Education Safeguarding Service.

9. Record Keeping

- All safeguarding concerns, discussions and decisions, and reasons for those decisions, will be recorded in writing on the settings safeguarding [incident/concern form/system](#) and pass them without delay to the DSL. Child Protection records will record facts and not personal opinions and a body map will be completed if injuries have been observed.
 - If members of staff are in any doubt about recording requirements, they should discuss their concerns with the DSL.
- Incident/Welfare concern forms are kept in the Green Folder on the entrance table

- Records will be completed as soon as possible after the incident/event, using the child's words and will be signed and dated by the member of staff. If there is an immediate concern the member of staff should consult with a DSL before completing the form as reporting urgent concerns takes priority.
- Safeguarding records are kept for individual children and are maintained separately from all other records relating to the child in the setting. Safeguarding records are kept in accordance with data protection legislation and are retained centrally and securely by the DSL. Safeguarding records are shared with staff on a 'need to know' basis only.
- All safeguarding records will be transferred in accordance with data protection legislation to the child's subsequent setting, under confidential and separate cover. These will be given to the new DSL and a receipt of delivery will be obtained.
- In addition to the child protection file, the DSL will also consider if it would be appropriate to share any information with the DSL at the new school or college in advance of a child leaving. For example, information that would allow the new school or college to continue to provide support

10. Multi-Agency Working

- Kindersivity recognises and is committed to its responsibility to work within the KSCMP multi-agency safeguarding arrangements. The leadership team and DSL will work to establish strong and co-operative local relationships with professionals in other agencies in line with statutory guidance.

- The DSL will disclose information about a learner on a 'need to know' basis.

We see its purpose is to monitor the progress of professional practice and to help staff to improve the quality of the work they do, thus improving outcomes for children as well as achieving agreed objectives. Notifications will be made as soon as is reasonably practicable, but at the latest within 14 days of the allegations being made and are aware that to not do so would be an offence.

18. Peer on Peer Abuse

- All members of staff at Kinderversity recognise that children can abuse their peers. Kinderversity believes that abuse is abuse and it will never be tolerated. All victims will be taken seriously and offered appropriate support, regardless of where the abuse takes place.
- Kinderversity recognises that peer on peer abuse can take many forms, including but not limited to:
 - bullying (including cyberbullying)
 - physical abuse which can include hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm
 - sexual violence and sexual harassment
 - 'upskirting', which typically involves taking a picture under a person's clothing without them knowing, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm
 - sexting (also known as youth produced sexual imagery)
 - initiation/hazing type violence and rituals
- Staff and leadership recognise that that some peer on peer abuse issues may be affected by gender, age, ability and culture of those involved, (i.e. for gender based abuse, girls are more likely to be victims and boys more likely to be perpetrators) however, all peer on peer abuse is unacceptable and all reports will be taken seriously.
- In order to minimise the risk of peer-on-peer abuse, Kinderversity will:
 - Talk to the children in an age appropriate manner to explain how we interact appropriately.
 - We have a bullying policy in place that lays out the steps to take in this event.
- All allegations of peer on peer abuse will be recorded, investigated, and dealt with in line with associated setting policies, including child protection, anti-bullying and behaviour.
- Alleged victims, perpetrators and any other child affected by peer on peer abuse may be supported by:
 - Taking all reports/allegations seriously
 - Listening carefully
 - Working with parents
 - If appropriate then referring to police/Front door

- When responding to concerns relating to child on child sexual violence or harassment, Kinderversity will follow the guidance outlined in part five of KCSIE 2020 and the DfE guidance [‘Sexual Violence and Sexual Harassment Between Children in Schools and Colleges’](#).
 - If DSLs are unsure how to proceed, advice will be sought from the Education Safeguarding Service.
- Kinderversity recognises that nude and semi-nude image sharing (also known as youth produced/involved sexual imagery or “sexting”) is a safeguarding issue; all concerns will be reported to and dealt with by the DSL (or deputy).
 - DSLs will respond to concerns as set out in the non-statutory UKCIS guidance: [‘Sharing nudes and semi-nudes: advice for education settings working with children and young people’](#) (Updated December 2020) and the local [KSCMP](#) guidance: “Responding to youth produced sexual imagery”.
 - All decisions and action taken will be recorded in line with our child protection procedures and will be based on the consideration of the best interests of any child involved. If DSLs are unsure how to proceed, advice will be sought from the Education Safeguarding Service.
- When made aware of concerns involving nude or semi-nude image taking/sharing involving children, staff are advised to:
 - Report any concerns involving nude or semi-nude image sharing involving children to the DSL immediately.
 - Never view, copy, print, share, store or save the imagery, or ask a child to share or download it – this may be illegal. If staff have already viewed the imagery by accident (e.g. if a child has shown it to them), this will be immediately reported to the DSL.
 - Not delete the imagery or ask a child delete it.
 - Not say or do anything to blame or shame any children involved.
 - Not ask the child or children involved in the incident to disclose information regarding the imagery and not share information about the incident with other members of staff, the child(ren) involved or their, or other, parents and/or carers. This is the responsibility of the DSL.

19. Mental Health

- All staff will be made aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Staff are aware of how children’s experiences, can impact on their mental health, behaviour and education.
- Staff are well placed to observe children day-to-day and identify those whose behaviour suggests that they may be experiencing a mental health problem or be at risk of developing one.
- If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken by speaking to the DSL or a deputy.

20. Safeguarding Children with Special Educational Needs and Disabilities

- Kinderversity acknowledges that children with special educational needs (SEN) and disabilities can face additional safeguarding challenges as they may have an impaired capacity to resist or avoid abuse. They may have speech, language and communication needs which may make it difficult to tell others what is happening. The DSL will work closely with the SENCO to plan support as required.
- Kinderversity will ensure that children with SEN and disabilities, specifically those with communication difficulties will be supported to ensure that their voice is heard and acted upon.

- All members of staff will be encouraged to appropriately explore possible indicators of abuse such as behaviour/mood change or injuries and not to assume that they are related to the child's disability and be aware that children with SEN and disabilities may not always outwardly display indicators of abuse. To address these additional challenges, our setting will always consider extra pastoral support for children with SEN and disabilities.

21. Online safety

- It is recognised by Kinderversity that the use of technology presents challenges and risks to children and adults both inside and outside of the setting.
- Kinderversity identifies that the breadth of issues classified within online safety is considerable, but can be categorised into three areas of risk:
 - content: being exposed to illegal, inappropriate or harmful material; for example, pornography, fake news, racist or radical and extremist views
 - contact: being subjected to harmful online interaction with other users; for example, commercial advertising as well as adults posing as children or young adults
 - conduct: personal online behaviour that increases the likelihood of, or causes, harm; for example, making, sending and receiving explicit images, or online bullying
- Kinderversity will empower, protect and educate the whole community in their use of technology and establish mechanisms to identify, intervene in, and escalate any incident where appropriate.
- The DSL has overall responsibility for online safeguarding within the setting but will liaise as necessary with other members of staff or support.
- Kinderversity uses a wide range of technology. This includes computers, laptops, tablets and other digital devices, the internet, Tapestry (our online learning journal) and email systems.
 - All setting owned devices and systems will be used in accordance with our acceptable use policies and with appropriate safety and security measures in place.
- Kinderversity recognises the specific risks that can be posed by mobile technology, including mobile phones and cameras. In accordance with EYFS 2017, Kinderversity has appropriate policies in place that are shared and understood by all members of the community.
 - Further information reading the specific approaches relating to this can be found in our Mobile Technology, Online Safety, Acceptable Use and Image Use Policies which can be found in our policy folder on the entrance table.
- Kinderversity will do all we reasonably can to limit exposure to online risks through our IT systems and will ensure that appropriate filtering and monitoring systems are in place.
 - All users will be informed that use of our systems can be monitored, and that monitoring will be in line with data protection, human rights, and privacy legislation.
 - Filtering breaches or concerns identified through our monitoring approaches will be record and reported to the DSL (or deputy), staff as appropriate.
 - Any access to material believed to be illegal will be reported immediately to the appropriate agencies, such as the [Internet Watch Foundation](#) and the police.
- Kinderversity acknowledges that whilst filtering and monitoring is an important part of our online safety responsibilities, it is only one part of our approach to online safety.
 - Children will be directed by staff to use appropriate search tools, apps and online resources as identified following an informed risk assessment.
 - Children's internet use will be directly supervised by staff.
- Kinderversity will ensure provide age appropriate online safety education to children to as part of providing a broad and balanced curriculum.

- Kinderversity will build a partnership approach to support parents/carers to become aware and alert to the need to keep early years children safe online by:
 - Regular newsletters
 - Open Door Policy
- Kinderversity will ensure that online safety training for staff is integrated, aligned and considered as part of our overarching safeguarding approach.
- The DSL will respond to online safety concerns in line with the child protection and other associated policies.
 - Internal sanctions and/or support will be implemented as appropriate.
 - Where necessary concerns will be escalated and reported to relevant partner agencies in line with local policies and procedures.

22. Educational Programmes and Staying Safe

- Kinderversity recognises that children learn best when they are healthy, safe and secure, when their individual needs are met, and when they have positive relationships with the adults caring for them. Our setting will provide a welcoming, safe and stimulating environment where children can enjoy learning and grow in confidence.
- We recognise that early years settings play an essential role in helping children to understand and identify the parameters of what is appropriate child and adult behaviour; what is 'safe'; to recognise when they and others close to them are not safe; and how to seek advice and support when they are concerned.
- Kinderversity will provide age appropriate educational programmes and opportunities to enable early years children to develop self-awareness, self-esteem, social and emotional understanding, assertiveness and decision making so that they have a range of contacts and strategies to ensure their own protection and understand the importance of protecting others, including online.
- Systems have been established to support the empowerment of children to talk to a range of staff. Children at Kinderversity will be listened to and heard and their concerns will be taken seriously and acted upon as appropriate.

23. Security

- All members of staff have a responsibility for maintaining awareness of buildings and grounds security and for reporting concerns that may come to light. Staff will be expected to adhere to any safety arrangements implemented because of Covid-19.
- Appropriate checks will be undertaken in respect of visitors and volunteers coming into the setting as outlined within guidance. Visitors will be expected to, sign in and out via the office visitors log and to display a visitor's badge whilst on site. Visitors will be expected to adhere to any safety arrangements implemented because of Covid-19.
- Any individual who is not known or identifiable on site should be challenged for clarification and reassurance.
- The setting will not accept the behaviour of any individual (parent or other) that threatens the settings security or leads others (child or adult) to feel unsafe. Such behaviour will be treated as a serious concern and may result in a decision to refuse access for that individual to the setting site.

Appendix 1: Categories of Abuse

All staff should be aware that abuse, neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Abuse: a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. They may be abused by an adult or adults or another child or children. It should be noted that abuse can be carried out both on and offline and be perpetrated by men, women and children.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet). Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Signs that MAY INDICATE Sexual Abuse

- Sudden changes in behaviour and school performance
- Displays of affection which are sexual and age inappropriate
- Self-harm, self-mutilation or attempts at suicide
- Alluding to secrets which they cannot reveal
- Tendency to cling or need constant reassurance
- Regression to younger behaviour for example thumb sucking, playing with discarded toys, acting like a baby
- Distrust of familiar adults e.g. anxiety of being left with relatives, a child minder or lodger
- Unexplained gifts or money
- Depression and withdrawal
- Fear of undressing for PE
- Sexually transmitted disease
- Fire setting

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Signs that MAY INDICATE physical abuse

- Bruises and abrasions around the face
- Damage or injury around the mouth
- Bi-lateral injuries such as two bruised eyes
- Bruising to soft area of the face such as the cheeks
- Fingertip bruising to the front or back of torso
- Bite marks
- Burns or scalds (unusual patterns and spread of injuries)
- Deep contact burns such as cigarette burns
- Injuries suggesting beatings (strap marks, welts)
- Covering arms and legs even when hot
- Aggressive behaviour or severe temper outbursts.

- Injuries need to be accounted for. Inadequate, inconsistent or excessively plausible explanations or a delay in seeking treatment should signal concern.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Signs that MAY INDICATE emotional abuse

- Over reaction to mistakes
- Lack of self-confidence/esteem
- Sudden speech disorders
- Self-harming
- Eating Disorders
- Extremes of passivity and/or aggression
- Compulsive stealing
- Drug, alcohol, solvent abuse
- Fear of parents being contacted
- Unwillingness or inability to play
- Excessive need for approval, attention and affection

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate care-givers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Signs that MAY INDICATE neglect.

- Constant hunger
- Poor personal hygiene
- Constant tiredness
- Inadequate clothing
- Frequent lateness or non-attendance at School
- Untreated medical problems
- Poor relationship with peers
- Compulsive stealing and scavenging
- Rocking, hair twisting and thumb sucking
